

CSHCS INFO #21-2012 - web access to CSHCS ALERTS and Information notices
Mon 11/19/2012

Many CSHCS ALERTS and CSHCS Information e-mails are being sent out and at times can be a little overwhelming in terms of keep track. In an effort to assist the CSHCS staff both local and central to keep track of all of the CSHCS information that is coming out as changes, adjustments, and updates, CSHCS has begun posting all ALERT notices and Information notices on the CSHCS website. Staff can now easily find the information that has been distributed starting calendar year 2012 in this way as needed.

Once on the CSHCS website main page, click on CSHCS links for local health departments. Scroll down past the guidance manual and all of the appendices and you will find both links that are available for your use. **If you have any questions, please contact Karla McCandless at mccandlessk@michigan.gov** Thanks.
